

sub B/c 28. (new) In combination, a cart having at least one pair of wheels for transporting said cart and a carrier mounted on said cart for supporting a bag or a sack on said cart, said carrier being releasable from said cart and having a pair of jaws for clamping and releasing said upper portion of said bag or sack from said carrier.

REMARKS

Reconsideration of the subject application is requested. An election has been made to prosecute the Group II claims which are directed to a bag carrier in combination with a cart. The title and abstract have been amended to agree with the elected species. All claims which were directed to the non-elected species have been cancelled without prejudice with the right reserved to file divisions at later dates.

Respectfully submitted,

Alex Rhodes, Reg. No. 26,797
